

'Acne Attack' Pro-Masque

Key Ingredients that Work

- Salicylic Acid (30%) – Powerful BHA action, exfoliates, decongests pores, clears blackheads, reduces irritation, anti-inflammatory, helps problematic and acne-prone skin.
- Lactic Acid (12%) – Natural unbuffered AHA, stimulates cellular renewal, improves texture, smooths fine lines, evens tone and color.
- Meadowsweet Extract – Regulates sebum, balances hormones within the skin, refines pores, reduces seborrhea, limits bacterial growth, provides antiseptic and antimicrobial benefits.
- Botanical Complex (Watercress, Burdock, Sage, Ivy, Soapwort) – Anti-inflammatory, antibacterial, antiseptic, sebo-regulating, clears and cleanses the skin, stimulates micro-circulation.
- Hydrogenated Polydecene – Deeply hydrating, improves spreadability, imparts a silky smooth feel.
- Panthenol (Pro Vitamin B5) – Soothing, repairing, deeply moisturizing, anti-inflammatory.

PRODUCTS THAT CHANGE LIVES

'Acne Attack' Pro-Masque

Product description

A fast-acting treatment masque formulated to target problematic and acne-prone skin. With a potent blend of Salicylic Acid and Lactic Acid, it helps eliminate active acne, reduce scarring, smooth texture, and even skin tone. Meadowsweet and a synergistic botanical complex provide sebo-regulating, antibacterial, and calming actions, while Hydrogenated Polydecene and Panthenol hydrate, repair, and soothe. The result is clearer, healthier, more balanced skin.
