

Marine Replenishing – Peptide Masque

Key Ingredients that Work

- Inter-Penetrating Biopolymer (Kappaphycus Alvarezii & Caesalpinia Spinosa Fruit Extract): Provides visible lifting, firming, and elasticity while protecting the skin.
- Caesalpinia Spinosa Oligosaccharides & Gum: Derived from Andean Mountain seeds, these natural hydrating molecules deliver immediate and long-lasting moisturisation. They improve skin smoothness, cellular cohesion, and flexibility.
- Wild Pansy Extract: Regulates epidermal hydration by enhancing water circulation and boosting hyaluronic acid production. Preserves skin suppleness and reduces the appearance of wrinkles.
- Japanese Lilyturf Extract: Reinforces the skin barrier to prevent moisture loss, increases natural moisturizing factors, and promotes long-lasting hydration for smoother, healthier skin.

PRODUCTS THAT CHANGE LIVES

Marine Replenishing – Peptide Masque

Product description

A luxurious ultra-rich gel masque that deeply hydrates, calms, and replenishes the skin. Packed with powerful natural actives, it enhances moisture retention, boosts hyaluronic acid production, and improves skin texture and elasticity. Bio-polymers from Red Algae visibly lift and firm, while extracts from Wild Pansy and Japanese Lilyturf help restore optimal hydration and barrier function. The result is smooth, supple, and youthful-looking skin. Perfect for reactive or problem-prone skin, Rescue Serum restores comfort, reduces irritation, and supports healthy, resilient skin.

Marine Replenishing – Peptide Masque

Directions for use

PM: Once weekly or as desired:

1. Cleanse with RégimA.
2. Apply eye care products.
3. Apply a thin layer of Masque to face and neck, avoiding the eye area.
4. May be applied over the top of RégimA serums.
 - Leave masque on and only cleanse in the morning.
 - To be followed by RégimA daily home care.

Important: MUST NOT be combined with any other product range.
