## **Slimming Sculpting Solution – Lift-Firm-Tone-Slim-Sculpt**

### **Product description**

A powerful synergy of bio-actives designed to slim, sculpt, and redefine body contours. This advanced formula targets stubborn fat deposits in the abdomen, thighs, and upper arms, stimulating lipolytic activity to break down fat while tightening the dermal fibre network for improved firmness and elasticity. This treatment restores the skin's natural stretch response, supporting a toned and sculpted silhouette. With regular use, it helps decrease fluid retention, reduce thigh and abdominal circumference, and improve overall dermal tightness for a more lifted, youthful look.

## Slimming Sculpting Solution – Lift-Firm-Tone-Slim-Sculpt

### Directions for use

#### All Skin Types

- Cleanse the body of cream and oil, except SpaZone Target Cellulite, which may be used in combination.
- Gently massage a thin layer of Cream Solution to target areas such as thighs, inner knees, abdomen, upper arms.
- A cooling sensation may be felt. These SpaZone products are leave-on treatments that work synergistically.
