

Pigment Perfector

Key Ingredients that Work

- Lumiskin – Advanced skin-lightening technology. Reduces melanin synthesis, evens complexion, boosts radiance, and provides visible reduction in pigmentation. Clinically tested to significantly lighten skin, reduce dark spots, and improve skin tone.
- Stabilised Vitamin C – Latest technology for stability and penetration. Gradually releases Vitamin C to brighten, protect against oxidative stress, stimulate collagen synthesis, and improve texture.
- Chinese Sophora Root Extract – Potent skin-whitening active with anti-inflammatory and antimicrobial properties. Protects hyaluronic acid in the skin, supports elasticity, soothes irritation, and reduces pigmentation.
- Black Tea Extract – Anti-glycation and antioxidant. Revitalises skin, smooths texture, brightens complexion, enhances radiance, and prevents collagen and elastin breakdown for firmer, more youthful skin.
- Kiwi Fruit Extract – Rich in antioxidants. Reduces fine lines, improves skin tone, helps diminish under-eye dark circles, and protects against pigmentation.
- Rosehip Oil – Rich in vitamins and antioxidants. Hydrates, soothes, reduces pigmentation and dark spots, smooths fine lines, and improves skin clarity.

PRODUCTS THAT CHANGE LIVES

Pigment Perfector

Product description

RégimA's Pigment Perfector is a cutting-edge anti-pigmentation treatment that targets uneven skin tone, melasma, sun spots, and age spots. Harnessing advanced lightening actives, it works synergistically to safely and gradually brighten the complexion while improving skin texture and radiance.

With state-of-the-art technology, Pigment Perfector combines Lumiskin, stabilized Vitamin C, Chinese Sophora Root, and Black Tea Extract for unmatched brightening power. Added Kiwi Fruit Extract helps reduce under-eye dark circles, making this treatment unique in its versatility and safety — even suitable for upper and lower eyelids.

With consistent use, skin becomes clearer, more even-toned, luminous, and refreshed.

Pigment Perfector

Directions for use

AM & PM: Cleanse with RégimA. Apply 2 pump depressions of Pigment Perfector to full face and neck, including the under eye area.

Avoid contact with eyes.

Never allow pigmented skin to become dry. Pigmentation treatment is greatly enhanced by RégimA Power Peel treatments.

Elimination of pigmentation is a gradual process and correct product maintenance is essential.

MUST NOT be combined with any other product range.
