Techno 5

Product description

Techno 5 is a next-generation “turbo cosmetic” serum that combines five advanced technologies to resurface, renew, and rejuvenate the skin. This powerful formulation harnesses the enzymatic action of pineapple and papaya extracts, breakthrough biomimetic peptides, and a unique tropical fruit complex for non-aggressive yet highly effective skin resurfacing. With additional brightening and anti-glycation actives, Techno 5 delivers instant luminosity, refined smoothness, and a firmer, more radiant complexion. Suitable for all skin types, including sensitive skins, it provides a continual resurfacing effect without irritation, leaving skin fresh, youthful, and glowing.
