PRODUCTS THAT CHANGE LIVES

Neck + Breast – Refining Complex Masque

Product description

The delicate neck, breast, and décolleté areas are often the first to reveal signs of ageing, sun damage, and neglect. This advanced treatment masque is designed to restore firmness, even out skin tone, and improve elasticity, helping to remodel and refine the skin's contours.

With a potent blend of renewal actives, including Shiitake mushrooms and purified black pepper berries, this masque works to protect collagen and elastin fibres, reduce sagging, and improve skin density. The result is smoother, firmer, and more youthful-looking skin. Continued use helps maintain optimal tone, texture, and hydration.
